

MATERIAL SAFETY DATA SHEET

Product Code D008
Product Name PK25 (Alkaline Detergent Formulation for Cleaning Concrete Tanks and other Water Storage Containers)
Web Site Address info@punkinosischemicals.com
Emergency Contact +234 8032900928

COMPOSITION INFORMATION

	Concentration
1. Sodium Lauryl Ether Sulphate	20%
2. Cocoamide Propyl Bentain	18%
3. Cocoamide Diethanol Amine	18%
4. Amine Soap	12%
5. Distilled Water	20%
6. Sodium Chloride	12%

PHYSICAL PROPERTIES

Appearance: Colorless Viscos Mobile Liquid
Viscosity: 12 Centipoise
Vapour Pressure (20° C): 2.2
Flash Point (°C): Not applicable
Vapour Pressure (°C): Not Applicable
Boiling Point: Not Applicable
pH: 8-9
Solubility in H₂O: 100%
Specific Gravity: 1.1

HAZARD IDENTIFICATION

Hazard and Precaution Statement

Causes eye irritation
Causes mild skin irritation
Avoid direct contact with eyes and skin
If on skin/eye wash with plenty of water
If eye irritation continues get a medical attention
Keep out of reach for children
Read label before use

Usage

Specifically designed for
washing/ cleaning concrete
water tank

Storage

Store locked up
Store in original container

Disposal

Dispose of contents/container
in accordance with local,
regional, or international laws

Other Features

- Completely Biodegradable
- Weather Degradable
- No fragrance
- No Colorant
